

THE WARRIOR'S DOJO

PERFORMANCE ENHANCEMENT FOR MARTIAL ART

НАЧАЛО ПУТИ

30-дневное обучение Железному телу под руководством
инструктора

Создайте тело, соответствующее искусству

15 июля – 15 августа 2026 г.

"Высшая цель боевых тренировок - не просто овладеть техникой. Это нужно для совершенствования практикующего."

Видео 1: Я хочу делать что-то другое

1:24

Видео 2: Я хочу признаться

3:04

Из кабинета Джона Хааса, тренера Warrior:

Дорогие друзья-воины,

Почти сорок лет я считал, что изучаю боевые искусства.

Лишь позже я понял, что боевые искусства незаметно изучали меня.

Каждое занятие.

Каждое повторение.

Каждая травма.

Каждый урок.

Каждый учитель.

Каждый успех.

Каждая неудача.

Все они задавали один и тот же вопрос.

Кем ты становишься?

Этот вопрос определил мою жизнь.

Он также определил все, чему я учу.

За последние несколько недель тысячи мастеров боевых искусств прочитали первую из серии **Писем Железного Тела**

Многие из вас написали мне, что эта философия нашла у вас отклик.

Вы увидели на этих страницах отражение своего собственного пути.

Но многие из вас поделились и другой мыслью.

«Мне не нужен еще один курс».

Мне тоже.

Проблема никогда не была в информации.

Проблема была в ее применении.

Читать о ежедневной практике — не то же самое, что развивать ее.

Понимание структуры — это не то же самое, что ее воплощение.

Согласиться с философией — не то же самое, что жить в соответствии с ней.

Это осознание вдохновило меня на создание чего-то нового.

Это НЕ очередной онлайн-курс.

Это тридцать дней практики под руководством инструктора.

Начиная с **15 июля** я лично буду вести небольшую группу мастеров боевых искусств по базовым практикам философии «Железное тело».

В течение месяца мы будем тренироваться вместе.

Мы будем задавать правильные вопросы.

Мы выработаем полезные привычки.

И самое главное — мы начнем развивать тело, лежащее в основе боевого искусства.

Речь не о кардинальных изменениях.

Речь о том, чтобы заложить фундамент, который будет служить опорой в течение следующих тридцати лет вашего боевого пути.

During these 30 days, we'll focus on five essential principles.

1) Structure

Learning how to organize the body so that movement begins from stability rather than effort.

2) Connection

Developing whole-body integration so force travels powerfully without unnecessary loss.

3) Breath and Pressure

Using breath to support posture, movement, structure, and calm resilience under pressure.

4) Daily Cultivation

Creating a sustainable personal practice that strengthens both body and character.

5) Integration

Bringing these principles together so they become part of the way you move—not just something you understand intellectually.

Our objective isn't to master these ideas in thirty days.

Our objective is to establish a practice that can continue serving you for the rest of your life.

Here's what you'll receive.

Four Live Online Coaching Sessions with Jon Haas

Each week we'll meet live online for instruction, demonstrations, discussion, and guided practice.

Weekly Q&A Sessions

Bring your questions, challenges, and training experiences.

We'll work through them together.

Lifetime Access to the Iron Body Core System

You'll receive the complete Core System—including the Daily Eight, Advanced Daily Eight, Martial Qigong, Iron Silk Method, Zhan Zhuang Unleashed, the Iron Body Kata, and all accompanying manuals and journals.

These become your lifelong training library.

Private Iron Body Practitioner's Circle

Train alongside other serious martial artists committed to lifelong development.

Share your progress.

Ask questions.

Encourage one another.

Continue learning long after the thirty days conclude.

Daily Accountability

Simple daily check-ins to help you remain faithful to your practice.

Because the path is built one day at a time.

IRON BODY

THE BEGINNING OF THE PATH

A GUIDED 30-DAY APPRENTICESHIP

BUILD THE BODY BENEATH THE ART.

Join Jon Haas for 30 days of guided practice, live coaching, and community as we lay the foundation for a stronger, more capable, and more resilient you.

LIVE THE PATH.

Your Permanent Training Library

While we'll spend thirty days training together, you'll also receive **lifetime access to the complete Iron Body Core System**.

Think of the Core System as your permanent training library.

It contains the complete curriculum we'll be drawing from throughout our month together, allowing you to revisit lessons, deepen your understanding, and continue practicing long after the apprenticeship has concluded.

During our live sessions, I'll show you how these pieces fit together into a single developmental path.

You'll never be left wondering:

"Where do I begin?"

Or...

"What should I practice next?"

We'll walk that path together.

Your Iron Body Core System Includes:

✓ The Iron Body Daily Eight (module 1)

Your daily foundation for building structure, mobility, resilience, and whole-body strength.

✓ Advanced Daily Eight (module 2)

The natural progression that expands your practice as your body develops.

✓ Zhan Zhuang Unleashed (module 3)

Standing meditation for structural alignment, rooting, internal connection, and relaxed power.

✓ The Iron Silk Method (module 4)

A complete tendon-strengthening system inspired by the Yi Jin Jing tradition.

✓ Martial Qigong (module 5)

Breath, movement, and internal cultivation for lifelong health and martial capability.

✓ The Iron Body Kata System (module 6)

Bringing all of the principles together into an integrated daily practice.

✓ The Iron Body Manual

The philosophy, principles, and developmental roadmap behind the entire system.

✓ Practice Journal & Training Protocols

Tools to help you establish a consistent, sustainable lifelong practice.

But here's the important distinction...

The videos are not the apprenticeship.

The curriculum is not the transformation.

The transformation comes from practicing.

That's why I created this guided thirty-day experience.

We'll take the complete Iron Body curriculum and bring it to life—one practice, one conversation, and one day at a time.

Curious about everything included in the complete curriculum?

You can explore the full Iron Body Core System here →

[View the Complete Core Curriculum](#)

Who is this for?

This intensive is for martial artists who...

- Have spent years collecting techniques but know their body could better support their art.
 - Want greater structure, resilience, and longevity—not simply more muscular strength.
 - Value thoughtful practice over quick fixes.
 - Believe that daily cultivation matters more than occasional inspiration.
 - Are ready to stop searching for the next technique and begin building the practitioner.
-

Who is this NOT for?

If you're looking for a thirty-day miracle...

This isn't it.

If you're searching for secret techniques that promise instant mastery...

This isn't that either.

This intensive is for people willing to embrace something quieter.

Something slower.

Something deeper.

The lifelong work of cultivation.

Why am I doing this?

Because after teaching online for many years, I've realized something important.

People don't simply need more information.

They need guidance.

They need accountability.

They need community.

They need someone to walk beside them as they establish a practice worthy of the art they love.

For the first time, that's exactly what I'd like to offer.

Investment

Founding Cohort

\$197

This is the very first time I'll be leading **The Beginning of the Path** as a live guided apprenticeship.

Because this inaugural group will help shape the future of the program—and the culture of the Iron Body community—I'm offering a special Founding Cohort investment of **\$197**.

Future cohorts will be offered at the regular investment of **\$497**.

If you've been looking for the right time to begin, I believe this is it.

I'd be honored to have you with us.

We Begin July 15, 2026

Every meaningful journey begins with a single step.

If the **Iron Body Letters** spoke to something you've been feeling for years...

If you've been searching not merely for another course, but for a deeper way of practicing...

Then I'd be honored to guide you through the first thirty days.

Let's begin building the body beneath the art.

[**\[JOIN THE BEGINNING OF THE PATH\]**](#)

A Personal Note

This apprenticeship is intentionally small.

Not because scarcity creates demand.

But because meaningful guidance requires attention.

During these thirty days, I'll be answering questions, leading live coaching sessions, participating in our private community, and helping each practitioner establish a daily practice.

That simply isn't possible with an unlimited number of participants.

For that reason, I'm limiting this inaugural apprenticeship to **30 Founding Practitioners**.

I'd much rather work closely with thirty committed martial artists than superficially with hundreds.

If this first cohort fills, we'll begin another group in the future.

But this founding group will only happen once.

If you'd like to be one of the practitioners who helps establish the culture and direction of the Iron Body community from the very beginning, I'd be honored to have you join us.

We begin July 15.

[\[JOIN THE BEGINNING OF THE PATH\]](#)

***** Applications close on July 14th, or when all 30 places have been filled—whichever comes first. *****

Let's begin building the body beneath the art.

P.S.

One of the ideas that has stayed with me throughout my martial journey comes from Matsuo Bashō:

"Do not seek to follow in the footsteps of the wise; seek what they sought."

This 30-day apprenticeship is not about becoming another version of me.

It is about beginning your own search—with guidance, with practice, and with a community of fellow practitioners walking beside you.

This first apprenticeship isn't for everyone.

It's for martial artists who understand that lasting progress isn't built through occasional bursts of motivation.

It's built through thoughtful practice, daily return, and a willingness to keep walking the path long after the excitement of something new has faded.

If that sounds like you, I think you'll feel at home here.

I hope you'll join us on July 15.

Every meaningful journey begins with a single step.

This apprenticeship is yours.

Thirty days.

Thirty Founding Practitioners.

One shared commitment: to begin building the body beneath the art.

If that resonates with you, I'd be honored to welcome you on July 15.

The Beginning of the Path

The Beginning of the Path is a live 30-day guided apprenticeship with Jon Haas. Build the body beneath the art through daily practice, live coaching, and a community dedicated to lifelong martial strength, resilience, and cultivation.
