Coffee

Beverages

Coffee is a beverage brewed from roasted, ground coffee beans. Darkly colored, bitter, and slightly acidic, coffee has a stimulating effect on humans, primarily due to its caffeine content, but decaffeinated coffee is also commercially available. There are also various coffee substitutes.

Lots of structured data is available for each result, including links, addresses, tweets, prices, thumbnails, ratings, reviews, rich snippets, and more.

U.S. Legal Shield

Our [U.S. Legal Shield](#) covers the scraping and parsing of search engine data, as long as your use of the data or service is not illegal. Such illegal use includes, by way of example and not limitation, copyright infringement, DMCA violations, other intellectual property infringement, privacy violations, fraud, harassment, cybercrime, terrorism, child exploitation, denial-of-service attacks, or war crimes. In short, we assume liability for the lawful collection of public search data, but not for how that data is ultimately used. Included with the Production Plan and above, with up to \$2 million in coverage.
