What if you can create and form real connections with AI characters that remember, empathize, and proactively engage?

Qwen-Character can create immersive role-play experiences that drive **50%+ deeper engagement** and significantly boost user LTV.

In this video, you'll learn how to:

- ✓ Build multi-turn conversations with real emotional depth and memory retention
- ✓ Create characters that can proactively ask questions, share stories, and build relationships
- ✓ Create personalities with distinct tones, backstories, and emotional states

Whether you're crafting interactive characters for games, social virtual companions, adaptive learning journeys, or emotionally intelligent AI partners, Qwen powers the next generation of interactive experiences.
