

Представляем Meta Glasses: новые модели от Meta и EssilorLuxottica по цене от 299 долларов

Блог

23 июня 2026 года

Очки — самая перспективная категория устройств в эпоху искусственного интеллекта. Это идеальное устройство для повседневного использования с ИИ-помощником, который понимает мир с вашей точки зрения. За последние пять лет мы с компанией EssilorLuxottica стали первопроходцами в этой области, продав миллионы устройств и доказав, что если очки с искусственным интеллектом будут стильными и полезными, люди сделают их частью своей повседневной жизни.

Сегодня в партнерстве с EssilorLuxottica мы представляем **очки Meta**. Эта новая линейка, созданная на основе всех технологий и функций самых продаваемых в мире очков с искусственным интеллектом, отличается смелыми и неподвластными времени формами, насыщенными цветами и высококачественными материалами. Все они изготовлены с заботой о потребителях и стоят от 299 долларов. Мы рады представить коллекцию, созданную в сотрудничестве с Кайли Дженнер, — ее первый опыт в сфере носимых технологий.

Пара для любого образа

Мы выпускаем очки Meta с тремя вариантами оправы, которые отличаются по форме и подходят для разных лиц, настроений и случаев:

- **Meta Adventurer** — лаконичная прямоугольная оправа для универсального образа, который никогда не выйдет из моды. Доступна в стандартном и большом размерах.
- **Meta Fury** — смелая оправа, которая привлекает внимание.
- **Meta Glasses by Kylie** — уникальная тонкая овальная оправа, вдохновленная личным стилем Кайли.

А поскольку очки — это очень индивидуальный аксессуар, мы решили создать широкий ассортимент комбинаций цветов и линз.

Очки Meta представлены в широкой цветовой палитре, включая классический черный, классический черепаховый, гоночный зеленый, льняной, бордовый, махагоновый и песочный, с солнцезащитными, переходными, поляризационными и прозрачными линзами, разработанными компанией EssilorLuxottica. В коллекции 26 различных стилей, так что подобрать очки Meta можно практически к любому образу.

Очки Meta совместимы с линзами с диоптриями*, а благодаря новой функции [замена линз с диоптриями](#) покупатели могут добавить линзы с диоптриями у своего любимого оптик-салона после покупки, не нарушая условий гарантии.

Seamless Utility, Designed for Your Daily Life

From building in 3-way adjustable nose pads, adjustable temple tips, and overextension hinges to the latest Meta AI technology, we considered every detail to deliver AI glasses you'll love, with more ways to personalize your fit than ever before. And like all AI glasses in our portfolio, Meta Glasses will feature:

- **Meta AI at your fingertips** — A dedicated action button lets you quickly invoke Meta AI or customize it to launch your favorite feature.
- **Crystal-clear audio** — Open-ear speakers deliver pristine audio quality without blocking your ears, so you can enjoy phone calls, music, podcasts and audiobooks while staying present and aware of your surroundings.
- **Advanced multi-mic array** — Advanced wind noise reduction means calls, messaging, and voice control are always crisp and sharp.
- **Capture and share** — Take photos and videos hands-free to stay present in the moment.
- **Privacy first** — Meta Glasses have clear, easy settings that [help you control](#) what you choose to share with others, as well as built-in safeguards to respect the privacy of people around you.
- **Power through your day** — Over 8 hours of battery so you can go from morning to night.

A Powerful Way to Interact with AI

Recently, we introduced [Muse Spark](#), the first model out of Meta Superintelligence Labs, built specifically for our products. It powers the completely rebuilt [Meta AI](#) with enhanced multimodal capabilities. Meta Glasses are our first AI glasses to launch with Meta AI powered by Muse Spark from Day 1, and it's also now available on Ray-Ban Meta and Oakley Meta glasses in the US and Canada.

With this version of Meta AI, your AI glasses will deliver smarter answers on everything from sports scores to local restaurant picks, better understand what you're seeing, and help manage your daily life effortlessly — whether you're building healthy habits, managing your calendar, or navigating a busy schedule hands-free.

With regular software updates and new features, the AI glasses experience is always improving. This month, we're introducing dynamic photo, a new way to capture that automatically snaps multiple frames and recommends the best one, while still letting you choose your favorite shot to share. Pedestrian navigation is coming soon for displayless glasses, making it easier than ever to get around with turn-by-turn directions. And we're adding support for 14 new languages to live translation**, including Japanese, Chinese (Mandarin), Hindi, and Korean, so you can have real-time conversations anywhere.

Available Today

Meta Glasses are available starting today*** at [Meta.com](https://www.meta.com), Lenscrafters, Sunglass Hut, Best Buy, Amazon, and additional select retailers. Stop into a [Meta Lab](#), or find in-store availability near you on the product page of your preferred style.

Meta Glasses come with their own on-the-go charging case that's foldable, portable, and powerful, providing up to 40 hours of additional battery life. Also available today, meet the new [Meta Glasses Charging Stand](#). Compatible with most AI glasses from Meta,**** it makes charging more convenient than ever. It's sleek, compact, and combines elegant craftsmanship with cutting-edge technology, so it'll look right at home on your nightstand, your desk, or anywhere else you choose.

**Meta Glasses are compatible with prescription lenses, within a total power range of -12 to +2.25, allowing customers to add prescription lenses to any frame. Meta.com Rx range: -6 to +2.25.*

***[Live translation](#) on Meta Glasses supports 20 languages: English, Spanish, French, Italian, German, Portuguese, Arabic, Chinese, Dutch, Finnish, Greek, Hindi, Indonesian, Japanese, Korean, Russian, Swedish, Thai, Turkish, Vietnamese.*

****Meta Glasses are sold in the US, UK, Canada, France, Italy, Spain, Germany, Ireland, Sweden, Denmark, Norway, Finland, Austria, Belgium, Netherlands, Switzerland and Australia.*

*****Meta Glasses Charging Stand is compatible with displayless Ray-Ban Meta, Oakley Meta HSTN and Meta Glasses styles.*
