Andy Jassy said AWS has "the potential to be a \$1 trillion revenue business."

01 AWS closes the gap with Azure

Year-over-year cloud revenue growth by quarter, AWS reaccelerated from 28% to 37% — its fastest in 18 quarters — narrowing the gap with Azure from 16 points to 6. Google Cloud reached 82% off the smallest base.

AWS' Path to \$1t

Two hyperscalers are pursuing opposite AI strategies, & the difference traces to who owns the stack.

Azure re-accelerates to 43%

Year-over-year revenue growth by quarter. Azure fell from 50% in 2021 to 27% by early 2023, then climbed back through 39%, 40% & 43% over the past three quarters. AWS Q2 reports July 30.

In 1989 Boris Yeltsin visited a Houston supermarket & was stunned by the variety of ice cream.

OpenRouter is that aisle for AI. And shoppers make surprising choices: OpenAI's year-old GPT-OSS 120b still commands 36% of Anthropic's Opus 4.8 volume.
