

that de-risk your next retail launch.

Built by the finance team behind hundreds of consumer-brand launches. Open the model for your channel, plug in your numbers, and walk into the buyer meeting knowing your margins, fees, and break-even cold, before you ship a single unit.

How the models work

fx =Contribution / Units · Break-even @ store 1,840						
DRIVER	MO 1		MO 2		MO 3	
Units / store / wk	42		38		51	
Net price	\$11.40		\$11.40		\$11.40	
Channel fees	(18%)		(22%)		(15%)	
Contribution	\$3.88		\$3.10		\$4.61	
Walmart	Target	Costco	Sephora	Ulta	Whole F

[Open template →](#)

 **Sephora**

3 TABS

DOOR	ST%	TEST	NET
Launch set	58%	\$1.2k	\$640
Full chain	46%	\$1.2k	\$410
Blended	51%	-	\$520

Sephora P&L Forecast Template

Start faster with the template top beauty brands are using to forecast Sephora sales, velocity, units, shipments, trade spend and more.

[Open template →](#)

// GROCERY & NATURAL

Grocery & Natural

Natural-channel velocity and distributor margins behave nothing like DTC. These tie shelf placement to real units-per-store-per-week.

KeHE

2 TABS

ACCOUNT	FY26	%
Gross (to KeHE)	\$964k	+11.6%
MCBs / CBs	(\$87k)	9.0%
Contrib. profit	\$390k	+16.2%

KeHE Forecasting Template

Download the template top consumer brands are using to forecast KeHE sales, MCBs, and net revenue.

[Open template →](#)

UNFI

2 TABS

ACCOUNT	FY26	%
Gross (to UNFI)	\$1.13M	+10.3%
MCBs / CBs	(\$102k)	9.0%
Contrib. profit	\$457k	+15.4%

UNFI Forecasting Template

Download the template top consumer brands are using to forecast UNFI sales, deductions, and net revenue.

[Open template →](#)

Sprouts

3 TABS

STORE	UPSPW	MARG	NET
Innov set	12	34%	\$58
Full set	9	31%	\$44
Blended	10	32%	\$49

Sprouts Forecasting Template

[Open template →](#)

// DIGITAL & SOCIAL

Digital & Social

Social commerce moves on creator-driven spikes, not steady demand. Model the promo windows and sell-through that come with them.

Amazon 1P P&L

3 TABS

LINE	FY26	%
Revenue	\$1.9M	100%
Chargebacks	(\$141k)	7.4%
Margin	\$462k	24.3%

Amazon 1P Vendor Central P&L Template

Download the template that walks Amazon's cost price down through nine deductions to the money you actually receive, then on to product margin.

TikTok Shop

3 TABS

DAY	ORDERS	GMV	CAC	MARGIN
Promo	1,420	\$38k	\$9.10	27%
Base	310	\$8.2k	\$12.40	22%
Blended	-	\$46k	-	26%

TikTok Shop Forecasting Template

Download the forecasting template that models content-driven revenue, creator commissions, and full P&L from gross sales to contribution profit, built

[Open template →](#)

specifically for consumer brands selling on TikTok Shop.

// HOW THE MODELS WORK

From download to buyer-ready in an afternoon.

- 01

Download the model
No login wall. Open it in Excel or Google Sheets, every formula is unlocked and documented.
- 02

Plug in your unit economics
Drop in cost, price, and the channel's fee structure. Blue cells are inputs; everything else calculates.
- 03

Pressure-test the launch
Flex store count, sell-through, and promo depth to see break-even, cash need, and contribution margin live.
- 04

Walk in with the numbers
Export the summary tab and bring a margin story your buyer (and your board) will actually trust.

// BEYOND THE SPREADSHEET

Templates are a great start. When you're live across three channels and reforecasting every Monday, Drivepoint connects your actuals and keeps every model current automatically.
